Course Description

The course aims to introduce students to the basic knowledge of Brazilian Portuguese, so that they can know the basic grammatical structures and achieve satisfactory performance in communicating orally and in writing. With this objective, various lexical-grammatical contents will be studied and different didactic activities will be carried out so that students can perform in communicative situations typical of a beginner level. They will also learn a little about the culture of Brazil, through activities, videos and readings.

Requirements

Students must attend 75% of the classes to be able to take the final exam. The professor will also keep track of attendance, since it is part of the final grade for the course (see Grading System). Lack of punctuality (arriving more than ten minutes late or leaving the class early) will be considered half an absence. In case of not attending a class, it is the students' responsibility to contact their classmates or the professor to find out and complete the assignments for the next class. Students are expected to actively participate in classes and make an oral presentation that must be accompanied by a written exam (the topic and date will be agreed with the professor during the course). During the semester, students will have homework and papers assigned for each class, which must be carried out in a timely manner. It is at the professor's discretion to accept out-of-term papers.
