

VET 2500 Introduction to Veterinary Clinical Practice and Skills

Course code: VET 2500

Total contact hours: 60 hours

Pre-requisite: None

Course Overview

This course offers students an immersive introduction to the field of veterinary science, emphasizing both small and large animal practices. Through lectures, hands-on activities, projects, case studies, labs, and fieldwork, students will explore the essential skills and knowledge required in veterinary medicine, aiding them in making informed decisions about pursuing a veterinary career.

This is a theoretical-practical course and explores/responds to the following inquiry according to the professional/disciplinary profile: What fundamental scientific knowledge and core clinical skills must all veterinary professionals demonstrate, regardless of their chosen specialization?
